

Discover the World of Professional Extrusion

Hydraulic Press Machine SH-HP05

Shouman is one of the leading providers of blown film machinery and complete plastic processing lines. With 25 years of experience, the company has gathered invaluable knowledge in the field of plastic processing. Our major strength in blown film industry is our capability to provide customers with complete solutions, starting from complete packaging systems, and ending up with green house film and agrifilm lines. Our design and manufacturing technologies are streamlined to enhance reliability, cost effectiveness, and productivity.

3D Computer Aided Design enhances reliability and robustness.

Optimized die design ensures uniform flow distribution.

Global Presence

Global operation requires global thinking, different markets need different strategies. Selling machinery around the world while keeping customers satisfied takes a lot of organization and clear vision. Listening to our customers and understanding their needs are our key tools for boosting our global presence. Throughout the past 25 years our machinery have reached more than 24 countries in Africa, Asia, and Europe.

Technical Specifications

Max. Press Force	5 ton	
Motor Power	3 hp	
Max. Travel Distance	90 mm (adjustable)	
Gear Pump	10 L/min	
Production Speed	36 stroke/min	
Weight	475 kg	
Dimensions	Length	1000 mm
	Width	750 mm
	Height	1500 mm
